YOU ARE INVITED TO BECOME A BEA MENTOR

When: Today!

Where: Connect with patients online and in person at fun-filled social events.

Why: BEA mentors spread awareness and encourage others to discover a new world of sound.

RSVP: Simply visit www.AdvancedBionics.com/mentors and complete the online form. You will be contacted by a BEA staff member to get you started. No mentoring experience necessary! We provide support and resources to create a positive, educational experience for all of our mentors.

A THANK YOU FROM AB!

When you sign up, we will send you a BEA member decal so you can start spreading the word about the support offered by the BEA.

QUESTIONS?

Call the BEA at
866.844.HEAR (4327) or
email hear@AdvancedBionics.com

Join a Community, Find a Family

Become a BEA Mentor Today.

Become a Mentor...Make a Difference

Whether they were born hard of hearing or had a sudden loss.

Whether they have one implant or two.

Whether they are a recipient, parent, or loved one of a recipient.

All mentors have one thing in common: **hope**.

They have the hope that their connection with someone seeking a cochlear implant will be a meaningful and memorable one.

“The power of a mentor is to reach out and help others as they go from not hearing to the miracle of getting an AB implant. To encourage them and give them hope.”

— Evelyn Gardner,
BEA Mentor

Help Others Hear and Be Heard

Bionic Ear Association™ (BEA) mentors spread awareness and encourage others to discover a new world of sound. A mentor is an AB recipient or the parent or loved one of a recipient who would like to share their CI story with someone affected by hearing loss. Mentors make a personal connection and lend support so that others beginning this journey feel comfortable asking questions and learning from someone who has walked in their shoes.

When you become a mentor, you will join an active and enthusiastic community of AB recipients trying to help others *Hear and Be Heard*. Mentors are the heart and soul of the BEA. They reach out, touch, and transform people's lives.

As a mentor, you can:

- Connect people with hearing loss to BEA services and AB technology.
- Share your personal experiences using AB cochlear implants and services.
- Be part of the largest online community of cochlear implant recipients and candidates.
- Be an active participant in AB and BEA events in your area.
