

How to Apply Skinit Decals to Your AB Processor

Show Off Your Unique Style

Eye-catching, easy-to-apply Skinit designs are fully customizable for your Harmony™ or Auria™ processors.

When ordering online, you will select your device and the pattern you prefer. Depending on your selection, you will receive one of three kits or an individual piece made specifically to fit your processor system components. Please reference these kit diagrams to apply your new Skinit designs. Simply peel the decal off the sheet and apply as shown to create a unique, new look!
