Your Gateway to a World of Wireless Connectivity

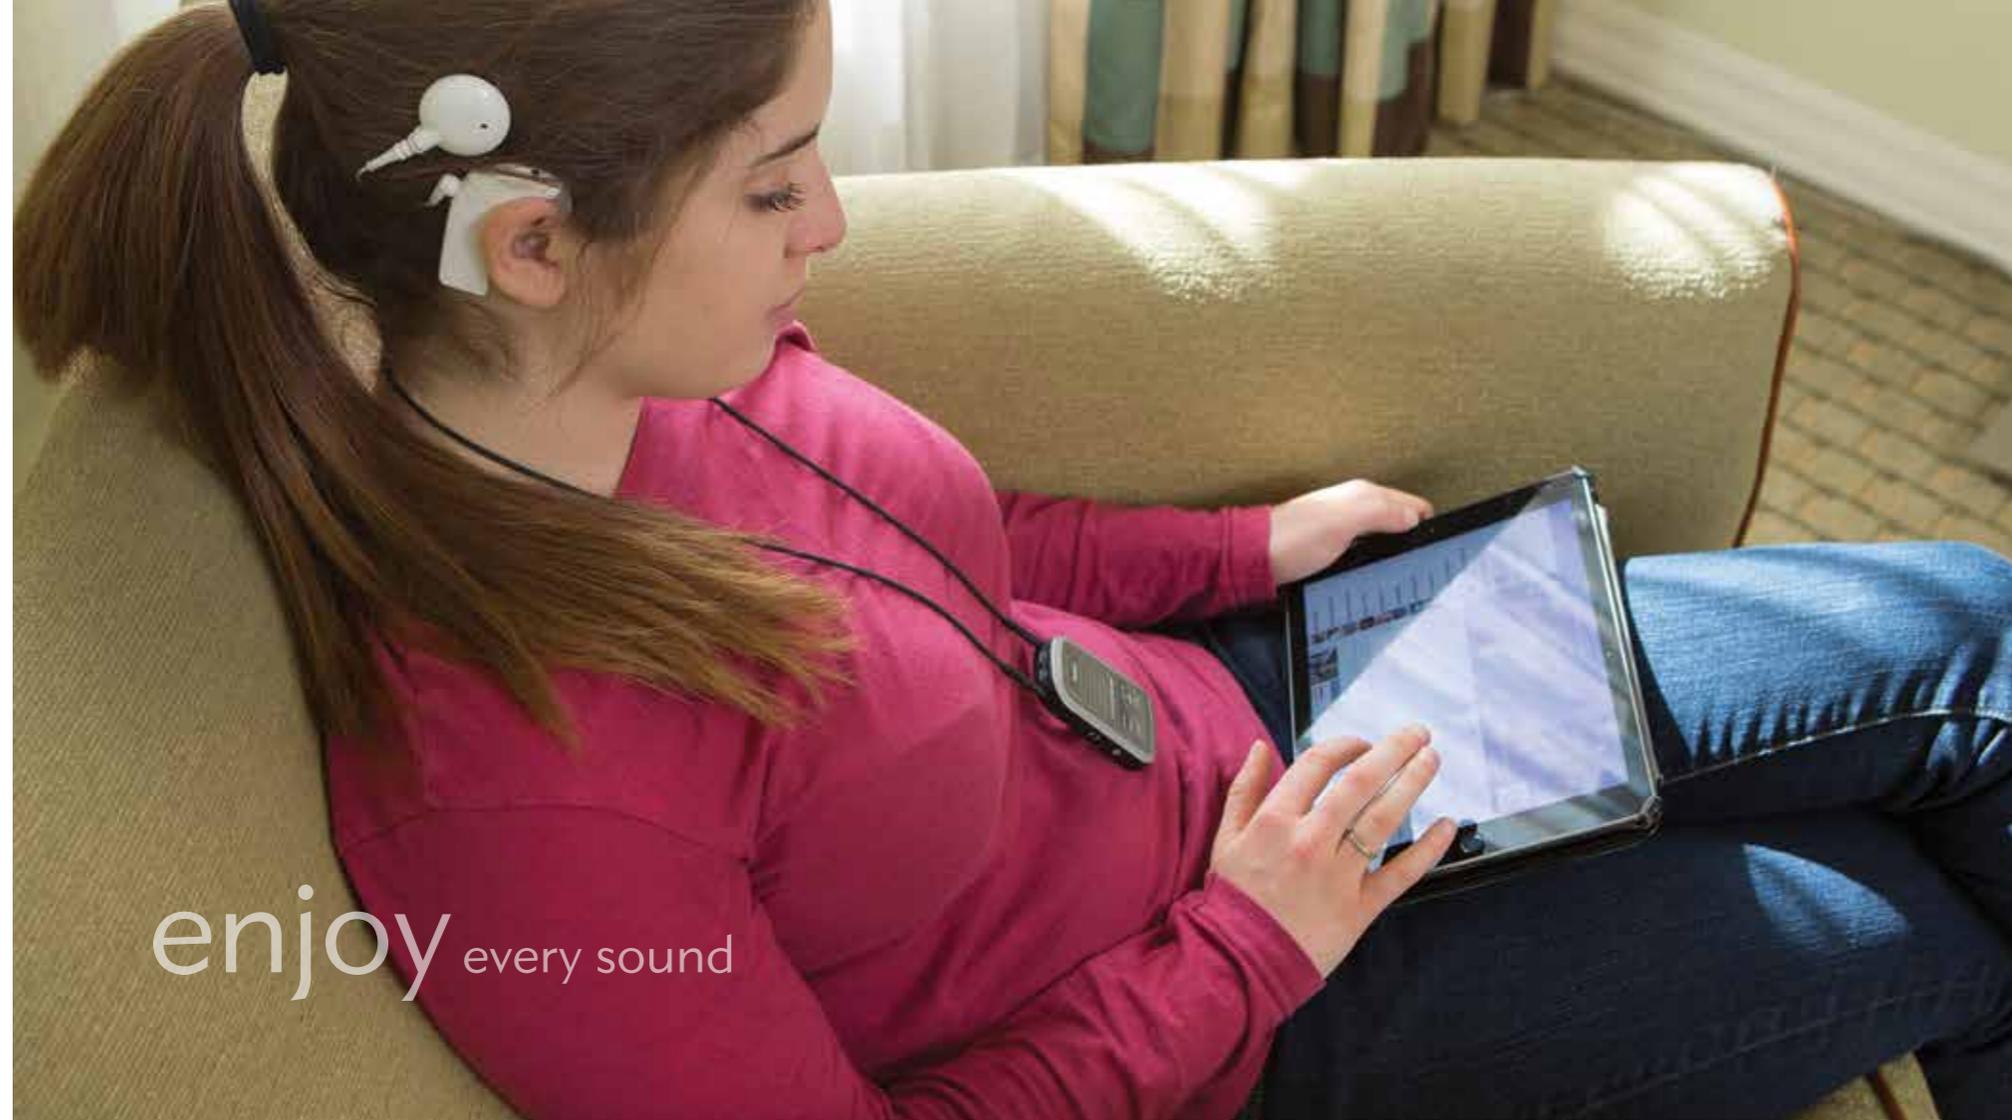

WELCOME

TO YOUR WIRELESS WORLD

Discover the freedom of wireless communication and the incredible benefits of better hearing in noise. With AB, you have access to the proven Phonak technology already relied upon by over half a million hearing aid users around the world.

Experience greater comfort and clarity in everyday activities such as using the phone, watching television, listening to music, or chatting with friends and loved ones.

enjoy every sound

CONNECT

AND TAKE CONTROL

Introducing the only all-in-one hands-free streaming device and remote control with voice alerts. With one touch of a button, the Phonak ComPilot accessory streams calls and media from any Bluetooth-enabled device. Whether you hear with one or two sound processors, or a sound processor and compatible Phonak hearing aid, the Phonak ComPilot is designed to help you enjoy every sound.

- Stay in touch by phone or online with confidence
- Enjoy your favorite music, games, or shows streamed straight to your ears
- Change your processor volume and program settings with the simple touch of a button

follow your favorite shows

TUNE IN TO WHAT'S ON

The Phonak TVLink II accessory connects to any television and streams high-quality audio via the Phonak ComPilot to your processor(s) or a processor and compatible Phonak hearing aid for hearing in surround sound.

- Listen at a volume level that is comfortable for you and those around you
- Keep listening as you move around the room or the house

catch every word

FOLLOW THE CONVERSATION

The discreet, lightweight Phonak RemoteMic accessory is a wireless microphone that works with the Phonak ComPilot to make conversations easier.

- Follow lectures and presentations with less effort
- Ideal for one-on-one chats over distance and in challenging listening situations
- Interact with your child at parks, playgrounds, and in the car

listen with ease

FOCUS

WHEN IT COUNTS THE MOST

Roger for Naïda CI

Communicate effortlessly in even the most challenging listening environments. The Roger system bridges the understanding gap in noise and over distance. Reduce loud background noise and wirelessly transmit the clear voices you want to hear directly to your ears.

An elegant design-integrated receiver attaches to your Naïda CI sound processor, enabling you to hear sound streamed completely wirelessly from the Roger Clip-On microphone or the versatile Roger Pen.

Roger Clip-On Mic

Roger Pen

- Understand speech clearly even in extremely noisy situations
- Communicate with ease over distance
- Stay in touch over the phone, on Skype, and FaceTime
- Enjoy hands-free TV and multi media connectivity
