Welcome

POWERFUL CONNECTIONS START HERE

Today, life is about connections. The connections you want to make are unique to you.

When powerful hearing solutions are required, Advanced Bionics sound processors are uniquely designed to maximise your hearing in even the most challenging environments.

Explore Marvel CI's powerful hearing solutions and discover how you can [connect with the moments you love.](#)

Connect

PAIR TO ANY BLUETOOTH DEVICE

Advanced Bionics integrated Bluetooth® technology turns Marvel hearing devices into a wireless headset. You can take phone calls and stream music or other audio directly to your ears using the Naída™ CI M sound processor or Phonak Naída™ Link M hearing aid.

- **HANDS FREE CALLS**
Your phone, your choice.
- **LEAVE YOUR PHONE IN YOUR POCKET**
Answer calls and talk through Marvel CI.
- **STREAM MUSIC AND AUDIO**
Like a wireless headset.

Engage

BE PART OF THE GROUP

Roger microphones boost hearing even in the most challenging listening environments such as group gatherings, noisy places or over distance. Roger microphones automatically adjust modes to reduce noise and wirelessly transmit the voices you want to hear directly into your ears. Your hearing care professional can install a Roger receiver into your Marvel devices, making Marvel CI the only sound processor to benefit from Roger without an external receiver.

- ZOOM IN WHEN IT'S NOISY
- FOCUS HEARING IN A GROUP
- BRING DISTANT VOICES CLOSER

EASY ONE-TO-ONE CONVERSATIONS

Phonak PartnerMic brings the voice of another person directly to your Marvel CI. Use this discreet and easy-to-use remote microphone when you need a little boost in one-to-one conversations. Attach it to your partner's shirt, blouse or jacket. Thanks to Phonak Airstream™ technology, speech is streamed to your Marvel CI sound processors without an additional device.

- EASY TO USE
- FOCUS ON THE SPEAKER
- STREAM DISCREETLY TO YOUR MARVEL CI
