

The Right Solution AT THE RIGHT TIME

Marvel CI + Link M

Marvel CI with Link M is a
Balanced Bimodal Solution

Premium level technology plus the AB Advantage: Instantaneous broadband transfer of data between both devices ensures they are always balanced.

Speech in 360° to detect where sounds are coming from and stream it to the other ear.

One app controls both devices: balance volume and programs with one-touch control

AutoSense AI in both devices: sounds are always classified the same in both ears

Simultaneous Remote Programming of both devices

Hands-Free calling with both ears, Acoustic Phones are heard in both ears

Share accessories such as: Partner Mic, TV Connector, & Roger microphones

Universal connectivity from any Bluetooth® device to both ear

Synced Timing, compression and volume for Inter-Aural Comparison

Excellent hearing – even in noise

Marvel CI + Phonak Hearing Aid

Matching a Marvel CI with a Phonak HA adds extra benefits

AutoSense AI in both devices

Remote Programming of both devices

Hands-Free calling with either ear

Share accessories like TV Connector and Roger microphones

Universal connectivity from any Bluetooth® device to preferred ear

Timing: aligned by default

AB & Phonak devices utilize AI technology to hear better in noise

Marvel CI + Any Hearing Aid

Any hearing aid can be worn with Marvel CI

Stream calls and entertainment to preferred ear

Timing: aligned by default

Hearing with both ears may improve hearing
